Important safety instruction

Please read the following carefully before using the product for the first time.

- Please read the instructions carefully. Keep it in a safe place for future reference.
- Please pay attention to all warnings on the product.
- Please follow all instructions. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not use this product near water. For example, near a bathtub, washbasin, kitchen sink, laundry tub, in a wet basement, or near a swimming pool.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other devices (including amplifiers) that produce heat.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this product during lightning storms or when unused for long periods of time.
- Refer to qualified service personnel for any repairs. Repairs are required when the product has been damaged in any way, such as when the power supply or plug has been damaged, liquid has spilled onto the product or objects have fallen into the product, the product has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Do not place any sources of naked flames, such as lit candles, on the product.
- Do not place any liquid containing objects on the product.
- Do not block the ventilation openings. Do not insert any objects into ventilation openings or debris. Do not place it on a dense surface.
- Do not expose the product to dripping or splashing.
- Do not disassemble, modify, or attempt to repair the product yourself.
- Do not use a plug other than the specified plug. Do not damage the plug. Do not damage the plug and wire. Do not pull the plug and wire forcefully.
- Keep the accessories and parts out of reach of children.
- Do not use the product if it is not in good condition.
- Do not use the product in extreme temperatures. Do not place the product in direct sunlight or near a heat source. Do not place the product in a place with poor ventilation.
- Do not use the product in a place with high humidity or dust.
- Do not use the product in a place with strong electromagnetic interference.
- Do not use the product in a place with strong vibrations.
- Do not use the product in a place with strong sound pressure.
- Do not use the product in a place with strong electromagnetic radiation.
- Do not use the product in a place with strong electrostatic interference.
- Do not use the product in a place with strong electrostatic discharge.
- Do not use the product in a place with strong electromagnetic interference

FCC Regulatory Compliance

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Compliance
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED Regulatory compliance

This device contains licence-exempt transmitters that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).
Operation is subject to the following two conditions:
This device may not cause interference.
This device must accept any interference, including interference that may cause undesired operation of the device.
L'émetteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
L'appareil ne doit pas produire de brouillage;
L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.
