Sheet: 1 of 2

Eng: CGA

Date Drawn: 10/20/15

 When using electrical equipment, basic safety precautions should always be followed, including the following:

- Read all instructions carefully before installing and save for future use.
- Make sure all connections are in accordance with the National Electrical Code and local regulations.
- To avoid possible electric shock, be sure the power supply is turned off before servicing or installing the fixture.
- Service should be performed by qualified personnel.
- These instructions may not cover all details or variations. If additional information is needed, please contact Visa Lighting.

MOUNTING WITH JUNCTION BOX COVER

- 1 Wall plate is independently mounted over a horizontal, 2 x 4 outlet box, via wall anchors & mtg screws (by others).
- 2 Note: If mounting over a 4" octagonal junction box, JBC option (not shown) must be ordered.
- 3 Wires from LED lamp plate extend through fixture housing - connect to junction box power - pushing connections into junction box.
- 4 Secure fixture housing to wall plate with (2) keps nuts provided.
- 5 Secure LED lamp plate to fixture housing with screws provided.
- 6 Lensing material must be in place as part of the electrical enclosure.
- 7 Place lens frame over lens and secure with screws provided.
