5

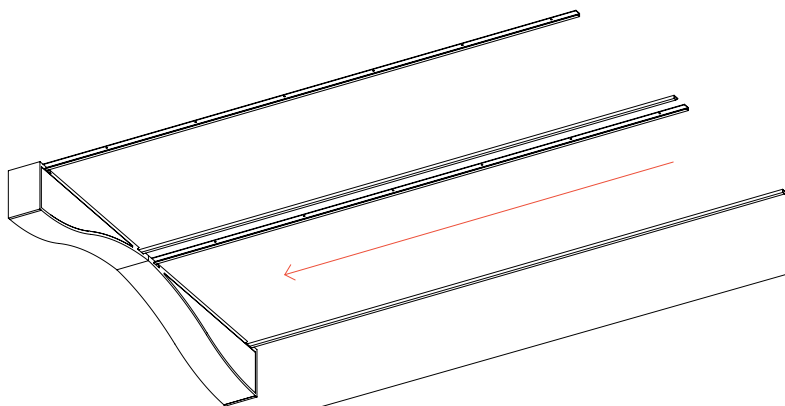

Step by step ceiling Installation: For Ceiling Installation you must buy the VicFix Gauge and VicFix J Profile 2m.

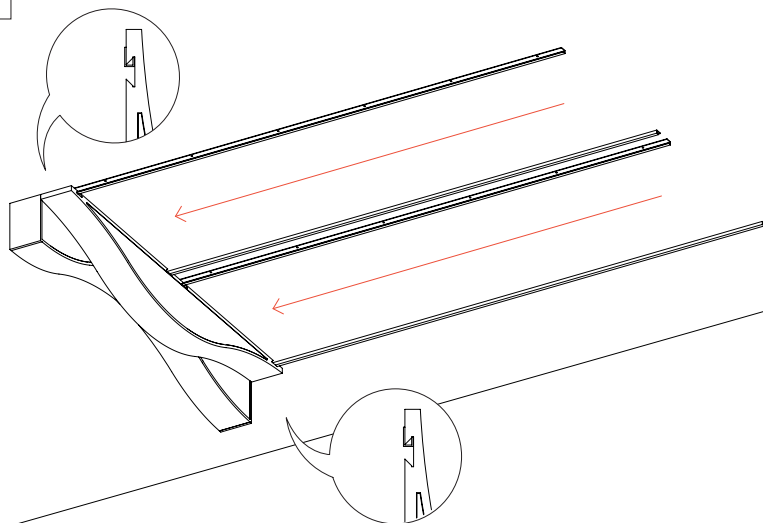

3

4

5

!

Please note: For ceiling installation do not use the VicFix J Profile sections supplied with the product. Use the VicFix J Profile 2m, sold separately. It is recommended to leave some centimeters beyond the last panel to avoid it to lose contact with the VicFix J profile. In countries where earthquakes are likely to happen, it should be applied a blocking element such as a L profile to avoid the last panel to slide off the VicFix J profile. Vicoustic will not take responsibility for any mistakes/limitations occurring during installations or any damages resulting from falling panels.
