

The 2021 Jetta GLI

Thrills come standard

Power meets style in the revved-up Jetta GLI performance sedan. Built for open roads and city streets, the GLI sports a mighty 228-horsepower turbocharged engine, sport-tuned Dynamic Chassis Control suspension and mechanical limited-slip differential.

Top Features

2.0 TSI engine

The 2.0 TSI engine with class leading standard torque is perfect for the conscientious car lover who seeks the balance between performance and fuel economy. To make matters more thrilling, a 6-speed manual transmission provides a greater level of driver involvement, or you can choose the 7-speed dual-clutch (DSG) automatic gearbox for near-instantaneous gear changes.*

Technology

High-performance gets high-tech in the Jetta GLI. The fully immersive, customizable and configurable Volkswagen Digital Cockpit comes standard on this model. Keyless entry and wireless charging offer the ultimate in convenience, or for audiophiles, the BeatsAudio® premium sound will delight with its 8 speaker and subwoofer studio-quality output.

GLI styling

GLI's standard black pack includes a black rear spoiler that enhances the sporty silhouette, while the black exterior mirror housings and roof elements add to its already good looks, as do the 18" black Sevilla alloy wheels. On the inside, configurable ambient lighting, a leather-wrapped sport steering wheel, rail 2 rail sunroof and ventilated and heated front seats with red accent stitching ensure the GLI always steers clear of mediocrity.

Dynamic Chassis Control

The Jetta GLI features sport-tuned Dynamic Chassis Control (DCC), a computer-controlled adaptive damping system that ensures a balance between razor-sharp handling responses and ultimate driving comfort. Using the standard Drive Mode select system, drivers can customize their preferred settings for DCC, steering weight, throttle response, differential lock, and more.

Mechanical limited-slip differential

The mechanical limited-slip differential automatically adjusts torque between the front wheels for precise power delivery while cornering or in slippery conditions.*

Safety comes first

The Jetta GLI comes equipped with a variety of features to help keep you confident behind the wheel.

Hit the road with confidence, thanks to driver assistance features like blind spot monitor with rear traffic alert, adaptive cruise control, rear view camera and hill hold assist.†

*Driver assistance features. Drivers must continue to perform manual checks and pay full attention to the road and safe driving. Please review the owner's manual for feature limitations.

†Please drive safely and obey all traffic laws, including speed limits.
