

Start and Go

Follow these instructions to start your FUV:

	1. Sit down in the FUV, and fasten both front Seat Belts .
	2. Set the Direction switch on the right grip to Neutral (•).
	3. Insert the key and turn it to the ON position. The FUV chimes, and the Display shows the Arcimoto logo.
	4. <i>Press and hold</i> the START button on the left grip.
	5. <i>Firmly</i> press the BRAKE PEDAL all the way to the floor to start the FUV.
	6. When the FUV starts, the Display updates to show the Drive screen. Once the FUV is started, release the START button and the Brake Pedal.
	7. Press the Parking Brake button on the Control Panel to release the Parking Brake . The Parking Brake is fully released when all three LEDs on the button are OFF.
	8. Use the DIRECTION switch on the right grip to select a safe direction of travel.  Select the UP arrow for Forward .  Select the DOWN arrow for Reverse .
	<i>WARNING!</i> Be sure the path is clear of obstructions, including people and animals, before twisting the throttle. 9. Gently twist the throttle to go!

If the FUV Doesn't Start

Check the **MOTOR OFF** Switch on the Right-hand grip - if it is in the **OFF** position, the FUV will not start. Switch to the **ON** position and try again. Note that the Motor Off tell-tale on the Display indicates if the motors are turned off.

Try again, but *apply more pressure on the Brake Pedal*. The Brake Pedal must be pressed all the way down to turn the FUV On.

Parking and Shut Down

1. Find a safe spot to park, and bring the FUV to a complete stop. **Leave the Brake Pedal depressed.**

2. Slide the **DIRECTION** switch to **Neutral (•)**.

3. Press the Parking Brake button on the Control Panel to **engage the Parking Brake**. The Parking Brake is fully engaged when all three LEDs on the button are lit.

4. Turn the Key to **OFF** and remove the Key.

5. Release the Brake Pedal.

Post-Drive

When you finish a drive, plug the FUV into a charging station to maintain charge. Keep the FUV plugged-in when not in use. The electronics in the FUV will keep the battery full, well balanced and ready for use without any risk of overcharging.

WARNING

Significant risk of injury or death. Follow all safety notes and warnings. Always wear seat belts, and obey all traffic laws.

Read the **FUV Owner's Guide** for details on safely operating the FUV and on using all of the features and functions.
