

Installation Instructions

Fresh Air Intake Kit for Wood Stove on legs and pedestal

AC01421

1. Application

This fresh air intake kit is designed to be installed on a wood stove with legs or pedestal. The vent termination must be installed outside the building.

2. Kit Contents

Air Intake Housing 5"
(A) 1x

Self-adhesive gasket
(B) (C) 36" long

Air control cover for round hatch rod
(D) 1x

Air control cover for flat hatch rod
(E) 1x

Air Intake grille 5"
(F) 1x

Black metal screw #10 x 5/8"
(G) 4x

Clamp (5") **(H)** 2x

3. Other Required Parts (not included)

Screws for the air intake grille
(I) 4x

Screws to secure the wood stove in the
mobile home
(J) 4x for stove on legs, 2x for stove on
pedestal

HVAC flexible insulated pipe in
accordance with ULC S110 or UL 181,
class 0 or class 1.
(K) 1x

4. Suggested Tools

Powered Driver

or

Robertson or Phillips screwdriver

5. Installation Instructions

The following images are showing a generic wood stove model. Even if your stove is different, the installation steps are identical.

Step 1. Cut two strips of self-adhesive gasket, one of 17 1/2" (444 mm) **(B)** and one of 19 5/8" (499 mm) **(C)**

Step 2. Install the two strips of self-adhesive gasket **(B and C)** on the fresh air intake **(A)** as shown.

Step 3. Position the air intake **(A)** underneath the stove.

Step 4. Fix the air intake at the back of the stove with two screws **(G, 2x)**.

Step 5. Fix the air intake on the front of the stove with two screws (**G**, 2x).

Step 6. Fold the air control cover as shown (**D** or **E**).

Step 7. Fix the air control cover (**D** or **E**) with two screws (**G**, 2x). *The example show the air control cover for a round hatch rod (**D**).*

Step 8. Make a 6" x 6" (150 mm x 150 mm) opening in the outside wall behind the unit. Install a 5" insulated flexible duct (**K**) to the air intake adapter using a clamp (**H**). Attach the other end of the flexible duct to the air intake grille (**F**) with another clamp (**H**). Secure the air intake grille with 4 screws (**I**, 4x), not supplied in this kit.

Example 1

Example 2

The fresh air intake assembly and duct should be inspected periodically to ensure that it is not obstructed.

9. For a mobile home installation, secure the stove to the floor with the appropriate hardware **(J)** for the flooring.
