

Wall Rangehood, 90cm, Box Chimney with External Motor

Series 7 | Contemporary

Black Stainless Steel and Glass

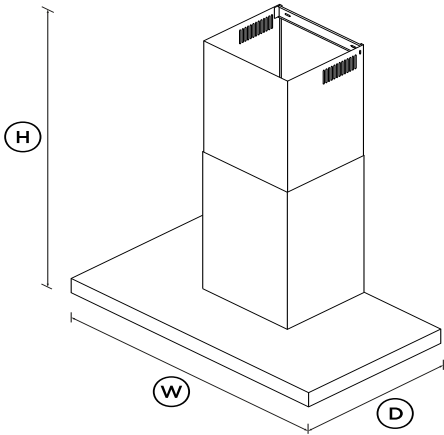

This wall chimney rangehood has an externally installed inline motor to deliver near silent yet powerful extraction of steam, grease and cooking odours.

- With three fan speeds plus a boost function, select the perfect extraction rate for your cooking
- Perimeter extraction for efficient removal of steam and odours
- Powerful maximum air movement of 1200m³/hr
- Wi-Fi enabled for notifications through the SmartHQ™ app

DIMENSIONS

Height	595-1035mm
Width	898mm
Depth	500mm

FEATURES & BENEFITS

NEAR SILENT EXTRACTION

The powerful external motor is installed outside the home to deliver near silent extraction of cooking odours and steam from the kitchen.

SEAMLESS INTEGRATION

Designed to match our Contemporary style appliances, this wall chimney rangehood features brushed black stainless steel and black glass styling to complement any kitchen design.

EFFECTIVE EXTRACTION

Featuring perimeter extraction, three fan speeds and a boost function, this rangehood provides powerful extraction to quickly remove odours and steam. Odours can linger in the kitchen well after cooking is finished so the timer keeps the hood working for up to 15 minutes before automatically turning off.

FULL SURFACE LIGHTING

Energy-efficient, dimmable LED lights provide superb illumination of the entire cooking surface.

SEAMLESS CONTROL

Connect this rangehood with an enabled Fisher & Paykel cooktop* via bluetooth. This smart functionality lets your cooktop take control of this hood and automatically activates the hood fan and lights when the cooktop is turned on. Fan speed can also be adjusted based on cooktop power. *This functionality is only available on selected Fisher & Paykel cooktops.

EASY CLEANING

Designed for simple removal, the filters are easy to clean and dishwasher safe, while the glass and stainless steel finish is easily wiped clean. The SmartHQ™ app will notify you when to clean the filters to ensure you get the best performance out of your rangehood.

CONSIDERED EFFICIENCY

The right amount of air is extracted to effectively remove cooking odours with reduced effect on your heating or air conditioning, ensuring less energy is used.

SPECIFICATIONS

Fan ratings

Maximum air movement	1200m ³ /hr
