2,Non-Mainland China users just scan the Google Play Version .

3,Both the Official Website Version and the Google Play Version are the same app, just only the download channels are different.

Official Website Version

Google Play Version

Account Registration and Login

When using a mobile phone number to register and log in, you need to select the corresponding country/region when registering and logging in, and replace the "+xx" country code at the beginning of the mobile phone number account with the code corresponding to the country to which the mobile phone number belongs.

Device Network Configuration

The default network configuration mode is Airlink Configure, and it can also be switched to "SoftAP Configure" by "Other Mode".

When configuring the network for the device, the mobile phone needs to be connected to the WiFi network that the device needs to configure (only 2.4 GHz WIFI network is supported when configuring the network for the device).

Airlink Configure

- Use Smart Life APP to click the “+” in the upper right corner of the main interface -> Next select “Security & Sensor” -> Next select Alarm “Wi-Fi” and click OK to enter the Wi-Fi interface.
- Enter the correct WiFi password, click “Next”, enter the device configuration preparation interface, and wait for the device to enter the Airlink Configure mode.
- According to the instructions, the device enters the WIFI Airlink Configure mode.
- Back to the “Smart Life APP”, click “Continue” to configure the network, and wait patiently for the network configuration to be completed.

SoftAP Configure

- Use Smart Life APP to click the “+” in the upper right corner of the main interface -> Next select “Security & Sensor” -> Next select Alarm “Wi-Fi” -> Next select “Other mode” -> Next Select “SoftAP Configure” and click OK to enter the Wi-Fi interface.
- Enter the correct WiFi password, click “Next”, enter the device configuration preparation interface, and wait for the device to enter the SoftAP mode.
- According to the instructions, the device enters the WIFI SoftAP mode.
- Back to the “Smart Life APP”, click “Continue” to configure the network, and wait patiently for the network configuration to be completed.
