

How do I connect a new device to the headphones?

- Enable Bluetooth in the device that you want to pair with the headphones.
 - Turn on the headphones by holding down the  button for **5 seconds**. The notification  will start to blink red/blue.
 - Select "BOLTT BH1400" headphones from the list displayed on your device
 - The headphones will play a short sound to confirm that the connection has been established, and the notification  will turn blue.
- The devices will now be paired automatically when within range.

Charging

When the battery is low, the headphones will play a short sound to signal they should be charged.

- Connect the provided microUSB cable to the headphones.
- Connect the cable to an appropriate power source.

During charging, the notification  will light red.

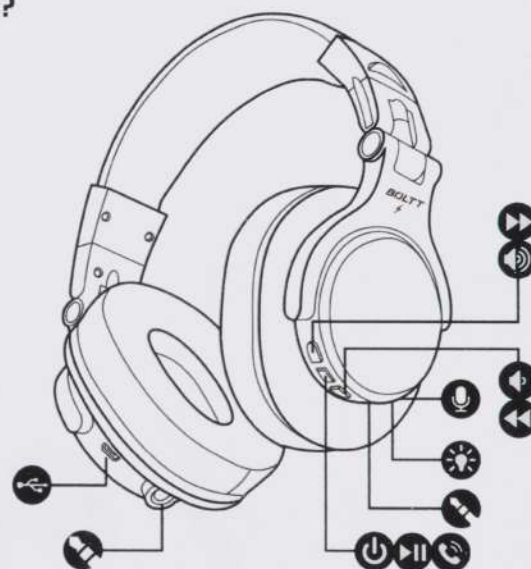

The headphones may also be used with a cable. Simply connect the AUX cable [provided] to the headphones and the source device.

How do I connect a previously paired device to the headphones?

- Enable Bluetooth in the device that was previously paired.
- Turn on the headphones by holding down the  button.
- The headphones will automatically pair with the device.

Safety Information

- Use as directed.
- Non-authorized repairs or taking the device to pieces make the warranty void and may cause the product damage.
- Avoid to hit or friction with a hard object, otherwise it will lead to grind surface or other hardware damage.
- Do not use the product in low and high temperatures, in strong magnetic fields and in the damp or dusty atmosphere.
- Do not drop, knock, or shake the device. Rough handling can break it.
- Slots and openings in the case are provided for ventilation and should not be obscure. Blocking the vents can cause overheating of the device.
