

Din Rail Mount LED Indicator Lamp Signal Indicator Light Pilot Light

Description:

The modularized 45D rail mounting indicator is suitable for installation on AC 50/60Hz, rated voltage 230V AC. It is suitable for non-professional use and does not require maintenance. DIN standard rail (35 × 7.5) installation, using LED cold light source, safe and reliable.

Specifications:

Illumination	Neon bulb, LED
Power Consumption	2W
Rated Voltage	230V AC
Operating Frequency	50/60Hz
Ambient Temperature	-5~+40°C, the average value cannot exceed to +35°C within 24h
Altitude	≤2000 m
Relative Humidity	≤95%
Pollution Level	II.
Installation Location	Place free from erosion of rain and snow
Color	Blue
Dimensions	7.7x6.6x1.8 cm

Made in China
