ROAMAN

IPX7 Electric Shaver

Model No.: RMS8101
User Manual(DEUKUS)

Please read the product manual before using, and keep it for future use.

General Information

Electric Razor
Model No:RMS8101

Introduction

- Thank you for your purchase. Please read this user manual as it contains information about the wonderful features of this shaver as well as some tips to make your shaving easier and more enjoyable.

Attention

Please read the user manual carefully before using this product, and keep for future reference.

Charging Instruction

Full Charge

Fully charging the shaver requires 1 hour. This will give approximately 120 minutes shaving time. When fully charged, the battery percentage indicating light will be always on.

Low Battery

When the first indicating light turns a flashing red, the shaver requires recharging.

Cleaning Tip

Press the on/off button for 3 seconds. Lock mode is engaged when indicator lights flash. Please lock the shaver before carrying it on a trip to prevent the shaver turning on unexpectedly.

Traveling lock

When the shaver is fully charged, the light will stop flashing and remain steady.

Charging

When the shaver is charging, the LED displays will initially light on one by one then turn off gradually. The remaining battery power status will be displayed by percentage indicator. When battery power is less than 10%, the battery percentage indicating light will turn a flashing red. When it reaches over 10% capacity, the light will turn white and flash. When the shaver is fully charged, the light will stop flashing and remain steady.

Charging operation procedure:

- Connect Micro USB port to the shaver charging port.
- Insert the USB plug into the USB charger.
- After the battery is fully charged, unplug the charger from socket and then unplug the USB cable from the shaver.

Cleaning Tips

Press the on/off button for 3 seconds. Lock mode is engaged when indicator lights flash. Please lock the shaver before carrying it on a trip to prevent the shaver turning on unexpectedly.

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precautions are required to always be followed (including the following). Read all instructions before using this appliance.

- The appliance is intended for household use only.
- Plug charger directly into receptacle. Do not use an extension cord.
- Unplug charger before plugging or unplugging appliance.

DANGER! TO reduce the risk of electric shock:

- Except when charging, always unplug this appliance from the electrical outlet immediately after using.
- Unplug this appliance before cleaning.

WARNING! TO reduce the risk of burns, fire, electric shock, or injury to persons:

- This appliance is not intended for use by persons (including children) who have reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not specified by the manufacturer.
- Never operate this appliance when it has a damaged cord or plug, when it is not working properly, after it has been dropped or damaged, or after it has been dropped into water. Return the appliance to a service center for examination and repair.
- Keep the cord away from heated surfaces.
- Keep the air openings free of lint, hair, and similar objects.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate while wet (appliance) products are being used.
- Do not use this appliance with a damaged or broken comb, as it has the potential to result in facial injury.
- Always attach plug to appliance first, then to outlet. To disconnect turn all controls to off position e.g. ("0") then remove plug from outlet. To use adaptor (see chapter 2.1 only).

Cleaning & Maintenance

Important: Do not use compressed air, scouring pads, abrasive cleaning agents, petrol, acetone and other corrosive liquid to clean the shaver.

- You can rinse the shaver under the tap or clean it with a brush which is included in the package.
- Be careful when using hot water. Always check the water temperature to make sure it is not too high to prevent scalding.
- Clean it each time after shaving to obtain the best shaving performance.
- A damp cloth may be used to clean the outside of the shaver, but do not wipe the shaver blade parts with a towel or tissue, as this may damage the shaver blades as well as risk personal injury.
