

Let's illuminate what your smart switch can do:

- 1**
Create the perfect lighting scene for every scenario.
Go to **CYNC App** and preset the optimal light levels under **create a scene**.
- 2**
Automate your lights to turn on when you come home.
Go to **CYNC App** and schedule times to turn lights on and off under **create a scene**.
- 3**
Preset brightness levels.
Dim switch to desired level, then turn off. Use **Dim** button instead of center on/off button to turn on lights at the preset level.
- 4**
Control other CYNC or C by GE bulbs in the room with your switch.
Go to **CYNC App**. Add bulbs and switches to the same room or group under **create a room**. (sold separately)

GE and C by GE are trademarks of General Electric Company. Used under trademark license.

Connect to your Alexa or Hey Google device to control your lights with your voice.

Try these voice commands:

Amazon Alexa

Alexa, turn off the living room.

Alexa, good morning.

Alexa, set kitchen to 50%.

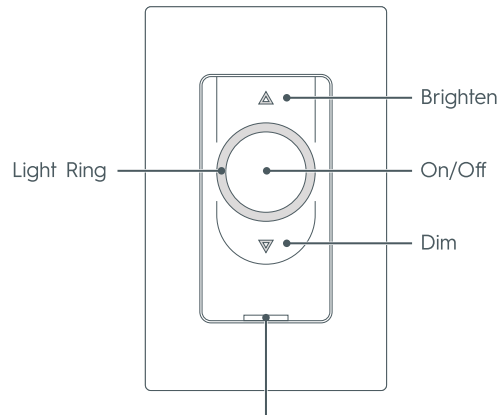

Google Assistant

Hey Google, turn on the lights.

Hey Google, set bedroom to 20%.

Hey Google, I'm leaving.

Touch Controls

Air Gap
(When changing light bulbs, pull out to turn off power to the sockets)
