

StarLeaf for Android Quick Start Guide

Signing into StarLeaf

After downloading StarLeaf, enter your email address into the sign in screen.

StarLeaf sends you a unique 6-digit code. Enter the code into StarLeaf to finish signing in.

Make a call

- 1) Search for a contact in the Search or dial bar.
- 2) Touch the contact's name.
- 3) Touch the call icon.
- 4) Choose video or voice call.

Do not disturb

You can set **Do not disturb** from the **Favorites**, **Chats**, **Calls**, and **Account** tabs, by touching the bell icon in the top right-hand corner.

Messaging

Collaborate with anyone using messaging and file sharing from the **Chats** tab.

Start a chat by touching the plus icon  and selecting **New chat** or **New group**.

For contacts outside of your organization, type their email address into the **Search or dial bar** instead.

Choose to **Archive** or **Mute** a chat by long pressing it.

Chat features

From a chat, you can:

-  Video or voice call
-  View their contact details
-  Share files and photos

Long press on any message or attachment to directly **Reply** to it, or **Forward** it to someone else.

Meetings

From the **Meetings** tab, select **Schedule** to schedule a meeting. Upcoming meetings appear in the **Meetings** tab.

Start an instant meeting by selecting **Start Meeting**.

Ten minutes before a meeting is due to start, a green join button appears.

Touch **JOIN** to join the meeting.

In-call controls

When you are in a meeting or call, you can use the following in-call controls:

-  Mute or unmute your microphone
-  Hang up
-  Turn your camera on or off
-  Access more controls such as:
 - Share my screen
 - In-meeting chat
 - Switch camera

Account settings

From the **Account** tab you can view your contact details and settings, and also **Log out**.
