WARNING

FAILURE TO FOLLOW THESE BASIC STEPS CAN LEAD TO DAMAGE THAT IS NOT COVERED BY YOUR WARRANTY

1

Read Instructions carefully.
Check no parts are missing.

2

Lay out all of the components on a soft surface
as if you were preparing to do a jigsaw puzzle.

3

Carefully identify each component, especially
those that are similar. The most common mistake
is getting things back to front.

4

Separate and identify each component from the
hardware pack and rest each one in its proper
location before fastening.

5

DO NOT fully tighten screws (leave slightly
loose). When the item is fully assembled
tighten the screws - but do not over tighten.

6

If glue is required **DO NOT** set until you are
certain that the parts belong together.
