IMPORTANT: To Install, You Must
Remove the Inner Frame First

Remove the Inner Frame

01

Separate the hardshell frame from the outer shell by pushing the corner of the case back and pulling the frame forward

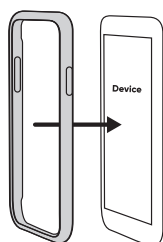

NOTE: Once frame is detached, remove the "SEPARATE" tag by pulling on the small tab

Snap on the Frame

02

Snap the hardshell frame over the front of your device

Replace the Outer Layer

03

Insert your device (with frame) back into the outer shell. Start at a corner and then working your way around your phone to ensure a secure fit
