

VOMIT & PUKE CLEAN UP KIT

The **VOMIT & PUKE CLEAN UP KIT** easily transforms liquid spills into an odorless mass for quick disposal. Effective against spills of blood, urine, feces, food, and other malodor substances. Great for nursing homes, veterinary offices, and hospitals. This kit contains all the necessary items for clean up and disposal of spilled bodily fluids following the guidelines of OSHA and The Centers for Disease Control.

Kit Contents:

- 1 packet of **ABSORBENT POWDER**
(absorbs 80 to 100 times its weight)
- 1 pair of disposable gloves
- 2 disposable scoops with hand grips
- 1 black disposable plastic bag
- 1 red biohazard disposable plastic bag
- 1 germicidal disposable wipe
- 2 antiseptic disinfectant towelettes
- Instruction sheet (English/Spanish/French)

INSTRUCTIONS

1. Put on disposable gloves immediately.
2. Cover the spill with the Absorbent Powder (will absorb 80-100 times its own weight). Allow to congeal and, using the two disposable scoops (one in each hand), remove the gelled waste material from the spill area and place in the black disposable bag.
3. Using the germicidal disposable wipe, clean up the spill area and place this in the black disposable bag.
4. Carefully remove the gloves and discard in the black disposable bag.
5. Close the black disposable bag and place in the red biohazard bag.
6. Open antiseptic towelette package and thoroughly wash your hands. Place the used towelette in the red biohazard plastic bag.
7. Close the red biohazard bag and discard in accordance with local regulations.

INSTRUCCIONES

1. Póngase inmediatamente guantes desechables.
2. Cubra el líquido derramado con el polvo absorbente (absorberá de 80 a 100 veces su peso). Permita para congelar y, con las dos cucharadas disponibles (una en cada mano), para quitar el material de desecho gelificado del área del derramamiento y el lugar en el bolso disponible negro.
3. Con el trapo disponible germicida, limpie encima del área del derramamiento y coloque esto en el bolso disponible negro.
4. Quite cuidadosamente los guantes y deseche en el bolso disponible negro.
5. Cierre el bolso disponible negro y colóquelo en el bolso rojo del biohazard.
6. Abra el conjunto antiséptico del towelette y lávese a conciencia las manos. Coloque el towelette usado en el bolso plástico del biohazard rojo.
7. Cierre el bolso rojo del biohazard y deseche de acuerdo con regulaciones locales.

PAGE D'INSTRUCTIONS

1. Mettez en fonction les gants jetables immédiatement.
2. Répartir de la poudre absorbante sur le lieu contaminé (elle peut absorber de 80 à 100 fois son poids). Laissez le tout se solidifier, puis en se servant des deux pelles jetables (dont une dans chaque main), enlevez les déchets gélifiés de la zone de flaque et les placez dans le sac jetable noir.
3. En utilisant le chiffon jetable germicide, nettoyez la zone de flaque et placez ceci dans le sac jetable noir.
4. Retirez soigneusement les gants et jetez dans le sac jetable noir.
5. Fermez le sac jetable noir et le placez dans le sac rouge de biohazard.
6. Ouvrez le module antiseptique de towelette et lavez-vous complètement les mains. Placez le towelette utilisé dans le sachet en plastique rouge de biohazard.
7. Fermez le sac rouge de biohazard et jetez selon des règlements locaux.

ABSORBENT POWDER
