

STEP 1: PREPARING FOR INSTALL

Roller shade must be fully Installed and chain operational before Safety Shield can be installed.

Refer to the different roller shade installation instructions.

STEP 2: INSTALLING THE SAFETY SHIELD

With #6 Screw provided fasten the Safety Shield to the inner wall of the window frame (Fig. 1 & 2). Ensure the chain can move freely through the Safety Shield. The Safety Shield should be snug but not too tight against the wall surface.
