

ASSEMBLY INSTRUCTION

Step 1: Push the door spring inside in the direction as the arrow shows.

Step 2: Pull the door up to the top until the trigger settled.

TRIGGER

Step 3. Set the hook and put the food behind the plate in the cage

Caution: Please be sure to hook up on the bar in order not to get injured when placing the food.

Step 4. Release the hook then the trap setting is finished. When an animal touches the plate in the cage the door will be triggered to close.

Step 5. How to release the animal the trap catches:

Repeat Step 1-3 to set the hook on the wire to keep the door opening and release the animal.
