4 How To Pair

Enable your Pairing function of your smartphone, search Wireless device and select "K13" to connect.

Suchen Sie das Paarung-Gerät und wählen Sie "K13" zum Verbinden.

Active el función de emparejamiento de su móvil, busque el dispositivo de Wireless y seleccione "K13" para conectarse.

Activez votre fonction d'appariement de votre smartphone, recherchez un périphérique sans fil et sélectionnez "K13" pour se connecter.

Attivare la funzione di associazione del tuo smartphone, cerca il dispositivo senza fili e seleziona "K13" per connetterti.

ご使用のデバイスの 設定 機能をONにして、無線リストから本機名を "K13" を選び、スピーカーとデバイスを接続してください。

Charge Battery

To charge, plug one end of the charging cable into the charging port and the other end into the mains.

Um zu laden, stecken Sie ein Ende des Ladekabels in den Ladenschluss und das andere Ende in das Stromnetz.

Pour charger, branchez une extrémité du câble de chargement dans le port de charge et l'autre extrémité dans le secteur.

Enchufe el cable de carga en el puerto de carga y conecte al fuente de alimentación para cargar.

Per ricaricare, inserire un'estremità del cavo di ricarica nella porta di ricarica e l'altra estremità nella rete elettrica.

充電ケーブルを充電ポートに挿入し充電します。

DC 5V

FCC STATEMENT

Operation is subject to the following three conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
- (3) This device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
