* You cannot screw the 15X Macro Lens directly onto the Universal Clip. For it to work properly you must screw this lens onto the 0.45X Wide Angle Lens and then screw these onto the Universal Clip .

HOW TO USE

1

Carefully screw the lenses (Macro must screw onto Wide Angle before attaching to clip) clockwise onto the universal clip. Careful not to touch the lens glass so dust and finger-prints stay off the glass. To remove, unscrew the lens from the clip and place the lens cap back onto the lens.

2

Attach the universal clip to the front of your phone (or tablet) so the lens is covering your phone's lens. You can adjust the lens to the best fit as you view your camera.
