Smart Life

Make the bulb flash

Switch on the light

Wait until the light blinks rapidly.
(twice a second)

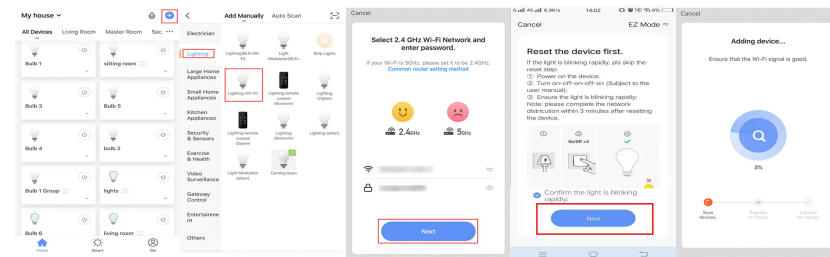

If the bulb does not flash rapidly,
power it off and on 3 times

 off
  on
  off
  on
  off
  on

Note: The bulb can flash fast and slow to connect,
power it off and on 3 times will reset the bulb
and change the flashing speed.

Now it's ready to connect, just follow the steps:

If it failed, make the bulb flash slow (once in 2 seconds),
and follow the steps:
