Wireless Microphone

Lightning receiver

User Manual

CE FCC RoHS RECYCLED MADE IN CHINA

Introduction

Thanks for choosing our product.
This product is a smart wireless microphone that provides professional-grade recording output. Plug and play, no app required. Multiple users can be used in online live broadcasts, video vlog shooting, program interview, recording, video teaching and other occasions.
The wireless Microphone consists of two parts, one is Microphone transmitter, the other one is lightning receiver. (See as below picture).

Microphone transmitter

Lightning receiver

ID Diagram

③ Microphone Type-C charging port

④ Microphone clip

⑤ Switch key

⑥ Microphone reset key

⑦ Lightning port to connect phone

⑧ Receiver indicator

⑨ Reset key of receiver

⑩ Lightning port of receiver

⑪ Reset hole

*The microphone is equipped with a built-in battery, which can be used only after being charged.
The power of Type-C receiver is supplied by phone. (B Type-C port is for phone charging.)

How to use

Step 1: Connect the lightning receiver to phone with lightning port. The connection is successful if the phone displays a small icon.

Step 2: Press switch key of microphone, the indicator light turns green, and then power is turned on.

Step 3: The indicator red light of receiver keeps always on, then open the phone camera, live App or other Apps, and then to use the microphone to receive sound.

Special Note

For the use of Lightning port, there is no battery in Lightning receiver, and it needs to recharge during live. If the phone is low power during live, it can be recharged directly through Lightning port.

About UI

Microphone Transmitter
