Product specification

Product Name	Smart Silicon Moonlight Lamp
Item No.	F11613
Size/Weight	104*128*154mm/226g
Material	Silicon, ABS, PVC
Rated voltage	5V / 1A
Rated current	120mA
Battery capacity	1000mAh
charging time	about 2 hours
Usage time	about 12 to 15 hours
Components	Product, Type-C cable(Bonus), manual
Country of Origin	China
Date of manufacture	2023.11
Certificate number	K010866-18003
Electromagnetic compatibility number	A-R-001-40-53061
Manufacturer's Name	WOTEC(Donggwang) Trading Co., Ltd
Importer	Shinco / JSC, 25, Jeongang-daem-1(il)-ga, Songpa-gu, Seoul
Manufacturer's Name	Makrocommerce corp / A/S 680, Daejeongang-gu-ro, Bundang-gu, Seongnam-si, Gyeonggi-do, Republic of Korea
Customer Service Contact	(02)2377-6243
Exchange Place	Place of purchase

Cautions

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is advised to make the following corrections.

- *Increase the separation between the equipment and receiver.
- *Connect the equipment into a outlet on a circuit different from that to which the receiver is connected.
- *Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
