Installation

Preparing the cavity:

The cavity & built-in cabinet will need to conform with the dimensions and specifications in the diagrams on pages 9 of the user manual.

Considerations:

- The fitted cabinet must have ventilation behind the appliance.
- Ensure that the power cord is not trapped or kinked.
- Make sure that the microwave is installed in the center of the surrounding cabinetry and secured with the mounting plate and screws.

For a complete guide, refer to the Installation instructions in the user manual, pages 8–11.

Setting the Clock

From the standby state, press the Time button twice. The screen will display “00:00” & the hour figure will flash. Adjust the hour using the dial. Press the Time button again to adjust the minutes. Press the Time button one last time to confirm your clock settings.

For a more detailed guide, refer to page 13 of your user manual.
