Uniden releases Mini Compact UHF CB Mobile with Remote Speaker MIC and Large LCD screen

The **X76** is the latest UHF offering from Uniden, the world's leaders in wireless communication. This new trade quality, in-car UHF radio features a remote speakerphone and oversized screen, ready to install for road users looking to upgrade their vehicle.

The X76 is the ultimate in compact UHF communications, built and engineered for rugged Australian and New Zealand conditions - ideal for 4WD enthusiasts and the growing number of caravanning holidaymakers. What differs between the X76 and other Uniden UHF models is the unit's Remote Speaker Microphone with a built-in oversized LCD backlit screen which allows flexible control of all functions and features remotely with one touch buttons (Instant, Call, Mon and EMG Buttons) on the mic. The Uniden X76 is a 5-watt transmission power unit with additional features including 7 Colour LCD to suit different vehicle interiors, Dual Watch and Duplex Capabilities for extended range.

Uniden's reliability and experience in UHF makes this unit ideal for the professional who needs to keep in touch while on the road. Since 1966, Uniden's Japanese heritage and build quality remain superior and the new X76 and the additional **X70** UHF model are no exception. Dual speakers come standard in both the speaker microphone and base unit allowing for clear and loud volume, making it suitable even in noisy vehicle environments.

The X70 features a flip LCD screen allowing large icon display with flip feature for optional reverse mounting. The quick release bracket enables easy movement between vehicles making it extremely portable and versatile.
