

WIRELESS GEAR®

TRUE WIRELESS EARBUDS
WITH CHARGING CASE

USER MANUAL

Bluetooth Pairing:

Step 1: Open the upper cover of the charging box and take out the earbuds, then the earbuds will be automatic pairing.

Step 2: Now the Left and Right earbuds flash red and blue. Once they pair each other successfully, one of the earbuds will stop flashing.

Step 3: The earbuds are now ready to get paired with your Bluetooth device via the Bluetooth menu in your smartphone or another Bluetooth device. Simply open up the Bluetooth function on your phone, then select the pairing name "WG-BT-EB" from the list of Bluetooth devices found, pair your earbuds with your phone.

Step 4: Listen to music and enjoy it.

Note: Earbuds will shut down themselves after they are not connected to any device in 5 minutes.

Touch Function:

Single touch any earbud: Play or Pause music.
Single touch any earbud while phone call: Answer or Hang up the phone call.
Press and Hold the Left earbud till hearing the first beep: Play the Previous Song.
Press and Hold the Right earbud till hearing the first beep: Play the Next Song.
Press and Hold any earbud till hearing the second beep: Activate Siri.
Press and Hold any earbud: Power off.

Device Safety

- Your True Wireless Earbuds have internal rechargeable batteries. Improper usage may result in the Earbuds becoming hot, ignite or burst and cause injury if exposed to conditions of abuse.
- Do not disassemble, throw away or damage the True Wireless Earbuds.
- Store the True Wireless Earbuds in a dry place, keeping them away from damp corrosive materials and environments such as salt air.
- Keep the True Wireless Earbuds away from direct sunlight, fire and high voltage equipment. Do not store the True Wireless Earbuds inside a car during hot weather. Remember a closed car acts as a green house allowing the inside to reach high temperatures.
- The True Wireless Earbuds are not a toy. Please keep them out of the reach of young children.
- Please do not discard the True Wireless Earbuds. Consult your local waste collection agency for proper disposal or recycling methods. You may also contact "Call2Recycle" at 877-273-2925 or online at "call2recycle.org" for a battery recycling drop off location near you.

Additional information.

Make sure the earbuds are paired before use and the Bluetooth function is activated on your phone. Make sure the earbuds are charged before use. Safety use of the lithium battery. The lithium batteries inside these products or not removable, do not attempt to remove these batteries.

FCC Information

FCC ID: 2A4MU31131

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation. Federal Communications Commission (FCC) Statement This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment. Tested to comply with FCC standard. FOR HOME OR OFFICE USE.

Warning:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

INTRODUCTION

Thank you for purchasing the WIRELESS GEAR® True Wireless Earbuds. For best use of this device, we recommend carefully reading this user manual and keeping it for your records.

Package contains:

- a. Wireless Two Earbuds
- b. Charging case
- c. USB charging cable
- d. User manual
- e. Ear gels

Automatic pairing:

After the earbuds are paired once with your device, next time the pairing will be automatically done after taking out the earbuds from the charging box. In other words, you do not need to look for your Bluetooth device the next time you wish to pair them with your device. The earbuds will be paired with your phone or Bluetooth device automatically when it's turned on again.

Charging the earbuds.

Simply put the earbuds into the charging box then it will be charging. While charging, the LED indicator of earbuds will turn solid red, and the LED indicator of the charging box will be blue. When earbuds are placed in the charging box, they will turn into charging mode and automatically power off. If earbuds are not charging after being put in the box, press the button in the charging box to turn the charging box on. The LED indicator of earbuds will turn off.

Charging the Charging Box:

Plug the charging cable into the charging port of the case, connect the charger to a USB power source, the charging case will flash blue during charging. If charging does not start, disconnect the charger then plug it again. Charging the battery may take approximately 1 hour. When the battery of the charging case is fully charged, four LED indicators on the front of the charging case will be solid blue.

Battery Information

Your earbuds are powered by a rechargeable battery. The full performance of new batteries is achieved only after two to three complete charge and discharge cycles. The batteries can be charged and discharged hundreds of times, but it will eventually wear out.

- Do not leave a fully charged earbud connected to a charger, overcharging may shorten their lifetime. If left unused, fully charged earbud batteries will lose their charge over time.
- Never use any charger that is damaged.
- Leaving the device in hot or cold places will reduce the capacity and lifetime of the batteries. Optimal temperature for the batteries is between 59°F and 77°F. A device with a hot or cold battery may not work temporarily, even when the batteries are fully charged.
- Do not dispose of batteries in a fire as they may explode. Batteries may also explode if damaged. Always dispose of batteries according to local regulations. Please recycle. Do not dispose as household waste.
