Jeep JLU 4 door Wrangler & JT Gladiator Behind Front Seat Barrier Divider Net Install

NOTE: Many newer models have B-pillar handles and even overhead on the ceiling that can be used for some of the top mounting locations. Check to see if you prefer to use these factory locations as the nets typically have enough adjustment to allow for this option. If your vehicle does not have handles in desired locations or you prefer to install mounting points for better fitment, please follow the below steps.

IMPORTANT: READ INSTRUCTIONS FULLY BEFORE STARTING

Time: *About 30 minutes or less*

Paw Level:

Tools: *(may vary by vehicle)*

NONE NEEDED

Step 1

Slide both front seats forward to have good access to installing the straps. You will reposition them in normal locations before doing final tensioning.⁶

Step 2

With logo facing the rear, loosely wrap each strap around roll bar at top above and just behind the front seat headrest. Attach the handle straps feeding from behind the handle and then back to the front of the net into the buckle and loosely tighten.

Step 3

Wrap the lower strap under the floor bracket for the front seats.

Step 4

Slide the seats into normal position, checking how much recline ability you'd like and then pull the straps tight, starting at top first, then the floor and lastly the middle handle straps.

Step 6

Pull the top straps as tight as possible, then fold seats back to the upright position. Tighten the remaining straps, working from side to side, top to bottom. Tighten the bottom straps last. Make sure seat belt clearance is maintained.

Once cargo net is centered as desired, wrap the loose strap ends around the taught straps and tuck in the ends.

IMPORTANT NOTE for dog owners, please look at some of our suggested training videos and tips while you introduce your dog to the net. [Click here to learn more about dog training and safety when using these nets.](#)

Thank you for purchasing Raingler Nets.
If you have any questions please contact us, we are here to help!

***Bonus! Share (or TAG US @Raingler_Nets) a few pictures of your net installed, especially with your dog! You might just get a bonus coupon for your next purchase!**
