ASSEMBLY INSTRUCTIONS

Step 1

- Assemble leg frames B with U frame A (U frame with cable ties). Slot right leg frame B (holes on outer side) into the U frame A. Adjust and fix at desired height by screw in engage and lock knob G.
- The pin of the engage and lock knob G must be submerged in a hole of the leg frame B before being tightened.
- Assemble the second leg frame likewise. Take care to adjust to the same height.

Step 2

- Place a support arm C at the required position on the U frame A.
- Slot a carriage bolt (H) through a support arm C and U frame A.
- Attach the second support arm in the same way.

Step 3

- Assemble 2 2nd tier support arms D with support tubes F, then assemble 2 support tubes F with L- base tubes E, adjust to desired height and angle, tighten with provided knobs G.

Step 4

- Place 2nd tiers at the required positions on the U frame A. Slot carriage bolts (H) through L-base tubes and U frame A.
