4-WAY BARNDOORS FOR SP-E-500II

USER MANUAL

G *genaray*®

THANK YOU FOR CHOOSING GENARAY

This 4-way barndoor attachment adds functionality to your SpectroLED Essential 500II Daylight and Bicolor LED light fixtures by shaping the light and adding professional production value to your photos and videos. The ability to shape the light is essential to any lighting system to control the direction and spread of the beam. Use the barndoors to cut the beam so your light falls on one specific area, like a subject's face or a dramatic slit of light on the background. The barndoors will also prevent light spill and unwanted lens flare. This rugged aluminum attachment fits onto the light fixture in seconds. The matte black barndoors absorb light for greater control while they minimize unwanted reflections.
