Product Structure

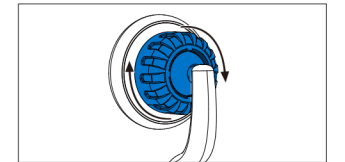

Product List

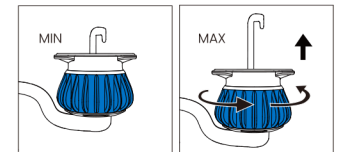

Installation Notes

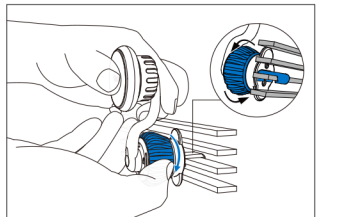

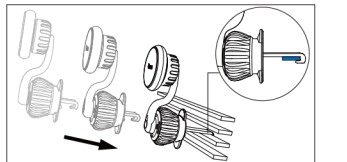

3. Tighten the fixing nut.

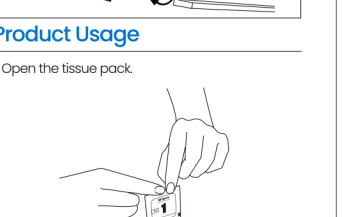

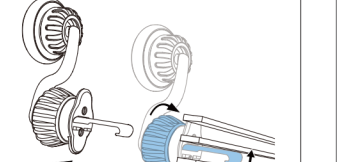

4. Turn the hook clip adjustment knob, adjust the hook clip to the biggest length.

5. Hook the hook clip into the blade, turn the hook clip adjustment knob to lock the blade tightly.

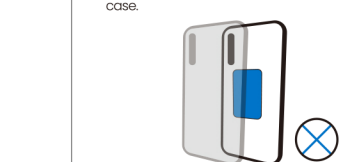

6. When disassembling, reverse turn the knob to reach the maximum, and detach from the blade.

Product Usage

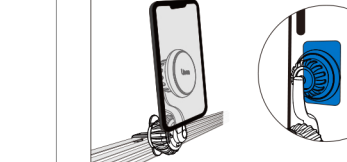

2. First wipe the back with a wet tissue, then dry it with a dry tissue.

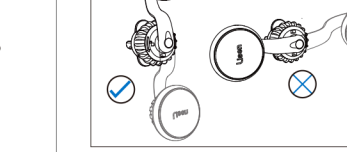

3. Tear off the film of iron sheet, and stick it to the back of the phone or the phone case.

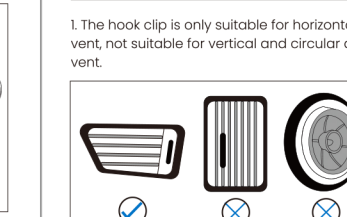

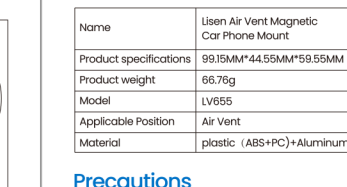

4. It is not recommended to place the iron sheet between the back of the phone and the phone case.

5. If the back of the phone or phone case is made of glass, after wiping it clean, first stick the PE film and then the iron sheet.

6. It is recommended to adjust the angle of the support arm as shown in the figure below.
