FEATURES & BENEFITS

- Multi-shelf cooking**
Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfectly as food cooking on the bottom shelf.
- Quality and durability**
Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, durable cooktop and glowing halo dials all add up to an exceptional, premium range.

- Power & control**
Instant and immediate control from the highest to the gentlest heat. The finely tuned cooktop controls let you sear, stir fry or simmer a delicate sauce to perfection.
- Easy to clean**
Cleaning up spills is effortless. Your cooktop simply needs a quick wipe to keep it looking good as new. The pyrolytic self-clean oven cycle breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.
- Even heat**
Accurate, electronically-controlled oven heat ensures a great result every time.
- Large capacity oven**
The generous 140L total capacity oven gives you plenty of space to cook multiple dishes at once.
- LARGE, FLEXIBLE COOKING AREA**
SmartZone links two cooking zones and controls them as one, giving you the flexibility to use large pans and griddles and easily handle bigger food items such as a whole fish. This cooktop comes with a small pot support and wok stand to complement different cooking styles.
