

PLEASE READ THIS MANUAL BEFORE USING YOUR CHARGING CASE

Special operating instructions

Do not operate in temperatures above 30 degrees, in high humidity or near water
 Keep the case open while charging for correct ventilation
 Keep the charging case on a sturdy, level surface while in operation
 Please ensure power is turned off while not in use.
 Replacement fuses must be of the same factory specification (as noted below)
 Do not disassemble this device. There are no user serviceable parts

Instruction

This charging station is suitable for charging multiple tablets and smart phones. It will store and charge up to 20 devices (PW-QCS15; 15 Devices, PW-QCS20; 20 devices). Observe the LED indicators for the charging status. RED indicates charging in progress, and GREEN indicates charging is complete.

Operation

Plug-in the mains power cable and turn on. Connect your devices using their USB charging cables (not supplied) and position them in the holding slots. Ensure the case lid is left open while charging for correct air flow.

SPECIFICATIONS

Model	PW-QCS15, PW-QCS20
Input	100-240V AC 50/60Hz 3.6A
Output	5V DC 2100mA x 20ports
Standard	GB4943.1-2011, UL/CUL60950, EN60950
Charge indicators	GREEN: Standby / Charging complete, RED: Charging underway
Fuse	T6.3AL / 250V ac
Protection	Over-voltage, over-current, short circuit
Dimension	L559*W443*D248
Working temperature	0°C ~ 30°C
Storage temperature	-20°C ~ 50°C
Working humidity	10% ~ 95%
