FEATURES & BENEFITS

Complementary design
The subtle black glass, anodised trim, and black dials blend elegance with durability and are designed to match the Minimal style Series 9 ovens. With premium styling and detailing, these cooktops seamlessly blend with other appliances for a cohesive, considered kitchen design.

Precise control
Precise temperature control at both low and high temperatures. Different burner sizes fit a variety of pots to complement different cooking styles.

Easy cleaning
Cleaning and care of these cooktops is easy with sealed burners and a single sheet cooking surface. After each use, simply remove the trivets and wipe down the glass.

Quality materials
With cast iron trivets, anodized metal dials and tough ceramic glass that can withstand high temperatures, we use only the highest quality materials for optimal performance.

SAFE & SOUND
The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

Quality materials
Our cooktops are built from recyclable, eco-friendly ceramic glass – without using arsenic or heavy metals in the manufacturing process. The glass edges are chip-tested for

resistance to damage from pots and pans, ensuring lasting quality.
