OVERVIEW

Mission GO-X1 truly wireless in-ear earbuds deliver immersive stereo quality sound with no cables!

Using advanced Bluetooth® 5.0 wireless technology, the **Mission GO-X1** TWS earphones ensure a more stable, longer distance wireless connection to your smartphone and other Bluetooth® devices, all with the **Mission** sound signature and CD quality resolution.

Offering simple one-touch pairing and auto-reconnect when you remove from the carrycase, the **Mission GO-X1** earbuds feature multi-function touch-sensitive controls so you can go in and out of your music or surroundings at the touch of a button. You can play, pause, skip and even answer calls in handsfree mode – with crystal clear calling capability – by simply tapping the **Mission GO-X1** earbud.

Compact, robust and lightweight, the **Mission GO-X1** earbuds won't weigh down on your ears! Lightweight, discreet and comfortable, they're designed to be worn all day.

You can re-charge on-the-go, too. The solid carry case operates as a recharging power bank. Fully charged earbuds will play for up to 5 hours. A fully charge carry case offers up to 18 recharges, from a single charge!

IPX5 waterproof rated, the **Mission GO-X1** TWS earbuds are rain and sweat resistant - perfect for the gym, hiking, jogging, and pretty much any outdoor activity.

Go further with your music, with the stylish, discreet and truly immersive **Mission GO-X1** TWS earphones!

GO-X1 *True Wireless Stereo In-ear Earbuds*

KEY FEATURES

True wireless technology

Bluetooth® 5.0 operation provides a stable connection and higher resolution audio transmission, with no cables!

IPX5

The **GO-X1** earbuds sweat and splash proof making them perfect for sport, cycling, hiking, driving, jogging, running... as well as your daily commute!

Handsfree calling with noise reduction technology

The **GO-X1** earbuds offer binaural (both ear) handsfree calling functionality with intelligent noise reduction technology for crystal clear speech pick-up and transmission, on both sides of the call.

Intelligent touch controls

Activate play/pause, track skip, volume control and call answering control all by simple touches to the **GO-X1** earbuds touch-sensitive casing.

Smart charging case

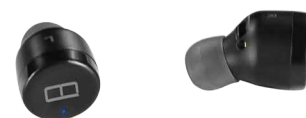

Convenient charging on the go with the smart charging case. The earbuds offer up to 5 hours music play time with a single charge from the charging case. A fully charged case also offers up to 18 re-charges, for 90 hours of play back.

One-step pairing technology

The **GO-X1** enters auto pairing mode when taken out of the charging case and auto disconnect when returned to the case.

Comfortable and discreet design

Compact, discreet and lightweight, each **GO-X1** earbud weighs only 4.5g. Supplied with a selection of silicon earbuds sizes, you can be sure of a comfy fit.
