Quick Start Guide

Lil'Clicks

Bluetooth[®]+Wireless Keyboard

I. Important - Warnings & Safety Instructions

1. Do not place the keyboard near the heat sources such as radiators, fire, stoves, light candles and other apparatus that produces heat.
2. Keep it dry. Do not allow the keyboard to get wet or expose to moisture/rain, else it increases the occurrences of fire or shock.
3. Use only those accessories supplied by FINGERS.
4. Refer all servicing to qualified personnel. Servicing is required when the keyboard has been damaged in any way. Any evidence of any attempt to open and/or alter the device, including any scratch, peeling, puncturing, or removal of any of the labels, will void the Limited Warranty.

Choking Hazard

This device may contain small parts which may be a choking hazard to children under 3 years. Keep small parts away from children.

II. System requirements

1. iPad, iPhone - All versions
2. Bluetooth®-enabled PCs or Laptops with Windows® XP, 7, 8.1, 10, 11
3. Bluetooth®-enabled iMac/MacBooks with Mac OS x 10.2.8 or above (Kindly note that some exceptions may apply. This keyboard may not be compatible with the Mac mini)
4. Smartphones or tablets with Android 3.0 and above (with Bluetooth® HID profile)
5. Windows® Mobile 5.0 and above

III. In the box

- 1 x Quick Start Guide
- 1 x Brand Note

IV. On-board Controls

V. Modes

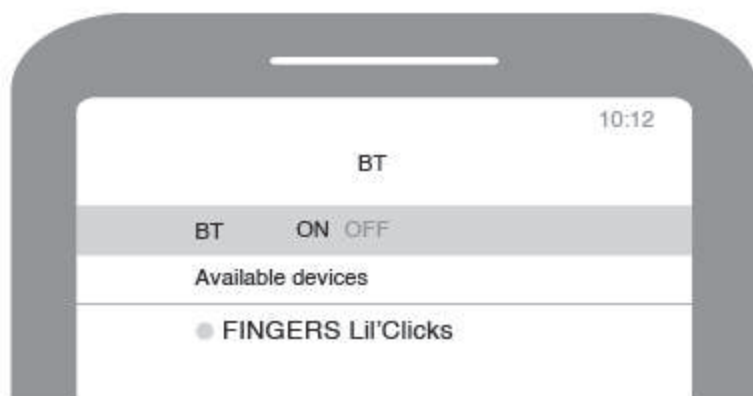

You can use Keyboard in the following various ways

- i. Bluetooth®
- ii. USB Receiver

i. Bluetooth Pairing

Pairing with Laptops & Desktop PCs

- Switch ON the keyboard and, the blue and green LED light will illuminate for 2 seconds, that then turns off to save power. In this case, please note that the keyboard is still on.
- Press the " Fn + BT1 " and the Bluetooth® indicator LED light will blink in blue, signifying that it is ready to pair a device.

- As it flashes Blue, make sure that Bluetooth® is enabled on your device. Find the device list and select "FINGERS Lil'Clicks".
- Once the Bluetooth® keyboard has been connected successfully to your device, the Bluetooth® indicator will turn off.
- Consequently, 2nd and 3rd devices can be connected by following above steps by pressing " Fn + BT2 " and " Fn + BT3 " respectively.

Pairing with Smartphones, Tablets (iOS/Android/Windows)

- Switch ON the keyboard and, the blue and green LED light will illuminate for 2 seconds, that then turns off to save power. In this case, please note that the keyboard is still on.
- Press the " Fn + BT1/BT2/BT3+ Q/W/E " (all 3 keys^ together) and the Bluetooth® indicator LED light will blink in blue, signifying that it is ready to pair a device.
- As it flashes Blue, make sure that Bluetooth® is enabled on your device. Find the device list and select "FINGERS Lil'Clicks".
- Once the Bluetooth® keyboard has been connected successfully to your device, the Bluetooth® indicator will turn off.

^Press Fn and Q (for Android), W (for Windows) or E (for iOS) keys together to connect and pair with device based on the OS.

ii. USB Receiver

- Step 1: Switch on your Keyboard
- Step 2: Take out the USB receiver.
- Step 3: Plug the USB Receiver into a USB port of your PC/Laptop. And, you're good to go! If the keyboard is connected with a Bluetooth® device, do press Fn + 4 to activate USB receiver connection.

VI. LED Indicators

Power ON	Blue & Green light lights up for 2 seconds
Bluetooth® Paring Mode	Blue light flashes for 3 minutes
Low Battery	Blue light flashes rapidly
Caps On-Off	Red LED On-Off
Charging	Green LED

VII. Charging/Battery backup

- Works up to 45 days* on single charge
- Plug the Keyboard into a USB Power supply using Micro USB charging cable provided.
- While charging, the LED turns green. Once completely charged, it turns to solid green.
- Allow up to 1.5 hours to completely charge the Keyboard.

VIII. Multi-Device Wireless Keyboard & seamless switch

We can pair 3 devices and can seamlessly switch among these devices.

*Only one connection will be active at a time.

Fn + BT1 >> Device 1 (Example : PC/Laptop)

Fn + BT2 >> Device 2 (Example: Tablet)

Fn + BT3 >> Device 3 (Example: Mobile Phone)

Once paired with device, the keyboard remembers the connected devices.

Just switch ON the Bluetooth® of the devices and the keyboard will get auto connected.

- After pairing for the first time, your device will connect to the keyboard automatically when switching on the keyboard.
- In case of connection failure, delete the pairing record from your device, and try the above pairing procedures again.

*User needs to remember the sequence i.e. BT1, BT2 & BT3 of connected devices.

IX. Power Saving Mode

The keyboard will enter into the sleep mode if kept idle for 15 minutes. To activate the keyboard, press any key and wait 3 seconds.
