

Model: 21TW32

FCC ID: 2AKI8-TWSEARBUDS

what's in box

USB charging cable x1

Manual x1

Bluetooth version: V5.0
Pairing name: IN EAR TWS
Speaker diameter: 8mm
Impedance: 16Ω ± 15% at 1kHz
Frequency range: 20Hz ~ 20KHz
Sensitivity: 90± 3dB @ 1mw 1kHz
Microphone_Sensitivity: -42 ± 3dB at 1mw 1kHz
Warning: Risk of fire, burns and explosion. Do not
above 45°C or incinerate.
Rechargeable Lithium battery
602030mAh 3.7V 150mAh
SHENZHEN ZSPOWE TECHNOLOGY CO., LTD
501015 3.7V 50mAh 0.185Wh
Shenzhen Jing Tai Technology Co., Ltd
Red wire (-) Black wire (+)
made in china XXXXX.XX.XX

Power on by hand: press & hold for 3s to power on, there is "power on" voice reminding
power off by hand: press & hold for 5s to power off, there is "power off" voice reminding

Play/pause music : Single click.

reject a call

Press & hold for 1s
R&L side

The diagram illustrates the experimental setup. A subject is seated at a computer, interacting with a software interface. The computer is connected to a data acquisition system (DAQ) via a USB cable. The DAQ is connected to a sensor module, which is in turn connected to a subject wearing a head-mounted display (HMD) and a sensor. A legend indicates that the sensor module is connected to the DAQ via a USB cable, and the DAQ is connected to the computer via a USB cable.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules; these limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Earbuds cannot power on
Battery level is low. Charge the Earbuds for 30 minutes, and then power on.

Smart phone cannot search Bluetooth Earbuds

1. Make sure the Earbuds is in pairing mode (red/blue LED flashing alternatively)
2. Delete pairing list in smart phone and searching Earbuds again.
3. If it cannot be found, please restart the smart phone and Earbuds again.

Earbuds will be disconnected from time to time

1. The battery drain.
2. The distance is beyond the communication range(10m)

No sound on talking mode

1. Confirm the Earbuds is connected to smart phone mode on talking.
2. Try to volume up Earbuds or smart phone.

No sound with music playing

1. Try to volume up Earbuds or smart phone.
2. Confirm Earbuds disconnected from smart phone, please reconnect again.

Cannot charge for Earbuds

1. Make sure the Earbuds placed well in the charging case and the charging case LED light slowly red/green/yellow
2. make sure LED lights red
3. Check if the charging cable is drain up
4. Charge the charging cable.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
