Installing PowerExtend USB Wall Outlet 2-Outlet

Instalación de la toma de pared USB PowerExtend con 2 tomas

Note: Make sure you shut off power before installing the wall outlet.

ES: Nota: Asegúrese de apagar la corriente antes de instalar la toma de pared.

1. This device is to be installed in a standard single gang electrical wall box (3" x 2" x 2½").

ES: Este dispositivo se debe instalar en un cajetín eléctrico de pared estándar de entrada única (3" x 2" x 2½").

2. Strip away the insulation until you have enough cable to wrap around the screw.

ES: Pele el revestimiento aislante hasta que quede expuesto suficiente cable para envolver el tornillo.

3. Loosen the screw and connect wires correspondingly as illustrated:

Connect the green (Ground) wire to the green lead.

Connect the black (Hot) wire to the screw marked "HOT".

Connect the white (Neutral) wire to the screw marked "WHITE".

ES: Afloje el tornillo y conecte los cables como se indica a continuación:

Conecte el cable verde (tierra) al terminal verde.

Conecte el cable negro (vivo) al tornillo marcado como "HOT".

Conecte el cable neutro (blanco) al tornillo marcado como "WHITE".

4. Wrap the wire around the screws tightly and then firmly secure the wires using the screws.

Tightening Torque: min. 0.8 Nm

ES: Enrolle el cable alrededor de los tornillos firmemente y luego fije los cables con firmeza usando los tornillos.

Par de apriete: 0,8 Nm mín.

5. Mount the wall outlet into a wall box using the provided screws and mount wall plate.

ES: Instale la toma de pared en un cajetín de pared mediante el uso de los tornillos y la placa de montaje en pared suministrados.

6. Restore power at the circuit breaker.

ES: Reanude la corriente en el disyuntor.

FCC Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

(4) Consult the dealer or an experienced radio / TV technician for help.
