Button Instructions

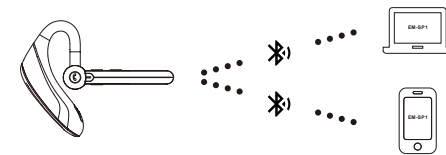

How to Pair

Long press the MFB for 3 seconds to turn on the headset, and then turn on the Bluetooth of the phone, search the device named "SP1" and connect.

※ Remark: the headset will turn off automatically when there is no connection within 3 minutes.

How to Connect with 2 Devices

1. Connect the first device, then disconnect it.
2. Connect the second device and reconnect the first device
3. If you cannot connect, please try to repair and connect the devices again.

※ **Note: please disconnect the first device or the headset Bluetooth name will be not found.**

The Problems You May Have

- ※ Disconnection: Please check if the distance between the mobile phone and the headset exceeds 15m.
- ※ No sound: Please check if the headset is at the low volume or the headset connects with the phone correctly.
- ※ Low battery: when it is at low battery, the indicator light will flash. Please use the standard type-c to charge when battery low.
- ※ Cannot pair: Please check whether the Bluetooth device is turned on and search for the headset device name.

Attention

1. Do not let children play headset. Small parts may cause suffocate.
2. Do not disassemble the headset, which will be regarded as man-made damage, which is not included in the warranty.
3. Do not use the headset under a humidity environment or in the pouring rain.
4. Do not clean the headset when it is charging. Separate the headset from the charging cable before cleaning.
