Main Functions

● Anti-lost Fence

Always pay attention to the distance between the pet owner and the pet, 3 modes for anti-lost warning, remind the pet owner when the Bluetooth connection signal is weak or beyond the Bluetooth connection distance

● Sound Searching

Quickly find the pet's location with sound alert by clicking the call button on APP if pets run out of sight.

● Activity Monitoring

Record pet activity data, assist the pet owner to keep monitoring of pet daily activities information.

● Cool Lights

Multiple personalized light effect by APP control.

● Two-way Searching

Lock both locations between tag & APP quickly by two-way calls for alerts. Double click the call button to receive sound, vibration or pop-up alert on your phone.

● Breakpoint Location

When the tag is disconnected from the mobile phone, the APP will automatically record the disconnection location, effectively narrowing down the searching area and quickly retrieving the pet.

● Sharing Management

Share the device management by up to 5 users, suitable for multi-person guardianship.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and

This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
