

MAGPAD

Kickstand Magnetic Wirless Charger

Model No. :

MCG123030BK22

PRODUCT DESCRIPTION

Charging Position

LED Indicator Light

USB-C Port

PRODUCT SPECIFICATIONS

Name :	MagPad Kickstand Magnetic Wirless Charger
Input :	5V==3A, 9V==2.22A
Output :	15W Max (compatible with 10W, 7.5W, 5W)
Dimensions :	64 x 64 x 14 mm (2.5 x 2.5 x 0.55 inches)
Net Weight :	56 g (1.98 oz)
Power Cable Length :	1.5 m

USER GUIDE

Connect the MCG123030BK22 to the power source via the USB-C cable:

- ①Please use the USB cable included in the MCG123030BK22 package to ensure the best charging efficiency.
- ②The MCG123030BK22 can be connected to USB-C-port-supported power sources.
- ③Please use any existing USB-C plugs that are suitable for power supply.
- ④The charging duration is affected by the phone battery capacity, phone (Rx) maximum charging rate per hour, the accuracy of the alignment between TX and RX, and the power provided by the source.
- ⑤A DC of at least 5V/3A is recommended for best charging efficiency.
- ⑥The LED indicator light was designed to be only visible under dark places to maintain the user experience.
- ⑦The indicator light will turn on when your power source is correctly connected to the MCG123030BK22 and vice versa when disconnected.

GENERAL PRECAUTIONS

- ① Please do not place any objects, such as coins, on top of the charger while charging.
- ②Please charge with a wireless charging compatible phone case or without phone case while charging.
- ③A phone case that is more than 3 mm in thickness may affect charging efficiency.
- ④When using the MCG123030BK22, please do not place too much weight over it or drop the device.
- ⑤Please do not attempt to repair the MCG123030BK22 wireless charger on your own by taking it apart.
- ⑥Please do not twist or squeeze the USB-C cable.
- ⑦If you need to change the USB cable, please make sure that the product meets the manufacturer's specifications.
- ⑧Please do not operate the charger when your hands are wet to prevent electric shocks or fire hazards.
- ⑨Please do not place the MCG123030BK22 wireless charger in a humid area.
- ⑩A power supply unit is not included with this product, we recommend that you use a 5V/3A power supply

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
