

Product Overview

Read this manual carefully before use, and retain it for future reference.

Package Contents: iMILAB C20 (1 power cable x 1, power cable x 1, wall-mounting accessories x 1, user manual x 1)

Installation

iMILAB C20 can be placed on a number of horizontal surfaces, such as a window desk, dining table, and coffee table. (It also is required to use the wall.)

Required iMILAB C20 on wall:

1. Cut the base on the wall by using the base of the iMILAB C20 as a template. It is recommended that you mark the base locations on the wall to be placed before drilling the diameter of each hole's edge accurately. Also, the hole depth is approximately 30mm.
2. Insert the base plate and fix the hole on the wall.

3. Make sure to position the base unit so that the screen is pointing up. Secure the base unit to be placed by tightening the screws on the plastic anchors.
4. Reaching the graphics on the function of the camera unit with the signal area on the back unit. Press down on the bottom surface and lock. Press the top camera unit in either direction to lock in position.

Warning:

- To avoid any damages or injuries, the device must be securely fastened to the item(s) as specified in the installation instructions.
- When mounting the security camera on a wall, please make sure that the wall itself can support all of the product's total weight.

Product Instructions
