Use only in the manner intended by the manufacturer. If you have any questions, contact the manufacturer.

INSTALLATION INSTRUCTIONS

1. Before beginning assembly, installation or operation of product, make sure all parts are present. If any part is missing or damaged, do not attempt to assemble, install or operate the product. Contact customer service for replacement parts.
2. Loosen screws counter clockwise (Figure 1)
3. Install the electrical box screws in the junction box (Figure 2)
4. Connect the black and white wires of the fixture with two wires of the same colors from the junction box with the wirecaps. Connect the grounding wire of the fixture with the one from the junction box with the wirecap. (Figure 3)
5. Put the fixture plate across the screw of the lock in Figure 2, then rotate fixture plate clockwise and lock it tightly with the screw lock. Use the switch to choose desired Color Temperature. (Figure 4)
6. Securely mount the fixture plate to the junction box firmly. (Figure 5)
7. Place Diffuser (Figure 6) and tighten screws clockwise. (Figure 7)
8. Restore power to the electrical box. Turn the light switch on to activate the fixture.
9. Supply at 120 V
