Models EK-32, EK-33 and EK-35
Rail Kits for System 3 Enclosures

Use the Model EK-32, EK-33 or EK-35 Rail Kits to mount modules in EB-32, EB-33 or EB-35 back boxes respectively. Each kit consists of 2 mounting rails, 2 top and bottom "Z" brackets, from 0 to 4 "U" brackets and mounting hardware. Refer to the table below for rail kit information.

1. Mount the 2 mounting rails on the studs in the back box. Secure in place with the flat washers and hex nuts provided.
2. Attach the "Z" brackets to the top and bottom positions of the mounting rails with the screws provided.
3. Attach any "U" brackets to available positions on the mounting rails between the "Z" brackets with the screws provided.
4. For EK-35 rail kits, install the 2 tension brackets on the rail assembly using the hardware provided. The longer bracket goes on the left side; the shorter bracket goes on the right side.
