manual

1. SAFETY

1.1. ELECTRICAL SAFETY

- ☐ **WARNING!** It is the user's responsibility to check the following:
Check all electrical equipment and appliances to ensure that they are safe before using. Inspect power supply leads, plugs and all electrical connections for wear and damage. Sealey recommend that an RCD (Residual Current Device) is used with all electrical products. You may obtain an RCD by contacting your local Sealey stockist.
If the product is used in the course of business duties, it must be maintained in a safe condition and routinely PAT (Portable Appliance Test) tested.
Electrical safety information, it is important that the following information is read and understood.
- 1.1.1. Ensure that the insulation on all cables and on the appliance is safe before connecting it to the power supply.
- 1.1.2. Regularly inspect power supply cables and plugs for wear or damage and check all connections to ensure that they are secure.
- 1.1.3. **Important:** Ensure that the voltage rating on the appliance suits the power supply to be used and that the plug is fitted with the correct fuse - see fuse rating in these instructions.
 - * **DO NOT** pull or carry the appliance by the power cable.
 - * **DO NOT** pull the plug from the socket by the cable. Remove the plug from the socket by maintaining a firm grip on the plug.
 - * **DO NOT** use worn or damaged cables, plugs or connectors. Ensure that any faulty item is repaired or replaced immediately by a qualified electrician.
- 1.2. This product is fitted with a BS1363/A 13 Amp 3 pin plug.
If the cable or plug is damaged during use, switch the electricity supply and remove from use.
Replace a damaged plug with a BS1363/A 13 Amp 3 pin plug. If in doubt contact a qualified electrician.
Class II products are wired with live (brown) and neutral (blue) only are marked with the Class II symbol;
A) Connect the BROWN live wire to the live terminal 'L'.
B) Connect the BLUE neutral wire to the neutral terminal 'N'.
C) After wiring, check that there are no bare wires and ensure that all wires have been correctly connected.
Ensure that the cable outer sheath extends inside the cable restraint and that the restraint is tight.
DO NOT connect either wire to the earth terminal.
Sealey recommend that repairs are carried out by a qualified electrician.
- 1.2.1. If an extension reel is used it should be fully unwound before connection.
A reel with an RCD fitted is preferred since any appliance plugged into it will be protected. The cable core section is important and should be at least 1.5mm², but to be absolutely sure that the capacity of the reel is suitable for this product and for others which may be used in the other output sockets, we recommend the use of 2.5mm² section cable. If extension reel is to be used outdoors, ensure it is marked for outdoor use.
NOTE: This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience or knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- 1.3. **GENERAL SAFETY**
 - ✓ Disconnect the fan from the mains power when not in use and before servicing or performing any maintenance.
 - ✓ Use the fan in dry areas only. **DO NOT** use in wet or areas with high condensation such as showers, pools etc.
 - ☐ **WARNING!** If a fan falls into water or other liquid, immediately switch off and disconnect from the mains power supply. **DO NOT** touch the fan until the mains power supply has been disconnected.
 - ✓ Always disconnect the fan from the power supply when moving it from one location to another and ensure fan is stood on a level surface.
 - ✓ The fan air flow is powerful. Before use ensure that there is nothing nearby that will be damaged or displaced by the stream of air.
 - ✓ Keep the fan clean and maintained in good condition. For motor service contact an authorised service agent.
 - ✓ Use recommended parts only. Unapproved parts may be dangerous, and will invalidate your warranty.
 - * **DO NOT** operate the fan where there are explosive or flammable gases, fumes or other hazardous substances.
 - * **DO NOT** stand the fan on the power cable.
 - * **DO NOT** insert any objects through the fan guard.
 - * **DO NOT** cover the fan when in use.
 - * **DO NOT** immerse the fan in water or any other liquid.

- ✗ **DO NOT** allow children to operate the fan.
- ✗ **DO NOT** stand the fan where it may be knocked over or off a surface, or where the lead may cause a person to trip.
- ✗ **DO NOT** use the fan outdoors.
- ✗ **DO NOT** modify speed control or attempt to fit any additional external speed control device to the fan.
- ✓ When not in use place the fan in its original box, or otherwise cover, to protect from dust and store in a safe, dry, childproof location.

2. INTRODUCTION

Manufactured from durable composite material, ergonomically designed to pivot on a 180° axis, maximising the volume and direction of air flow. Features 1 speed setting to keep a constant air flow around the room. Fitted with BS fully approved plug.

3. SPECIFICATION

Model no: SFF04
 Fan diameter: 100mm (4")
 Speeds: 1
 Power: 14W
 Supply: 230V
 Height: 150mm

4. OPERATION

- 4.1. Ensure that on/off switch (on the back of the fan motor), is in the 'off' position before connecting to mains.
- 4.2. Route the flex from the mains plug to the machine so as not to present a trip hazard.

5. MAINTENANCE

IMPORTANT: Turn the fan OFF and disconnect from power supply before cleaning.

- 5.1. Use only a soft, damp cloth to clean the fan.
 - ✗ **DO NOT** immerse the fan in water and **NEVER** allow water to drip into the motor housing.
 - ✗ **DO NOT** use solvents or other chemicals to clean the fan.
- 5.2. To clean the fan blades, remove front guard by removing the 2 screws situated on the reverse side of the fan guard.
- 5.3. Wipe the blades and guards clean then reassemble front guard.
- 5.4. When not in use, place the fan in its original box or otherwise cover to protect from dust and store in a safe, dry childproof location.

WEEE REGULATIONS

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

Important: No Liability is accepted for incorrect use of this product.

Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
