

Important: Read all instructions prior to installation.

Magnetic Mount LED Tube Light Retrofit Kit

Safety and Notes

- Ensure fixture input voltage is compatible with LED retrofit kit before installation.
- This product should be installed by a certified electrician in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures. Inspect wiring and components for damage before restoring power to the fixture.
- Avoid looking directly into the lamps when illuminated.
- Not intended for use with emergency lighting.
- For ballast bypass only.

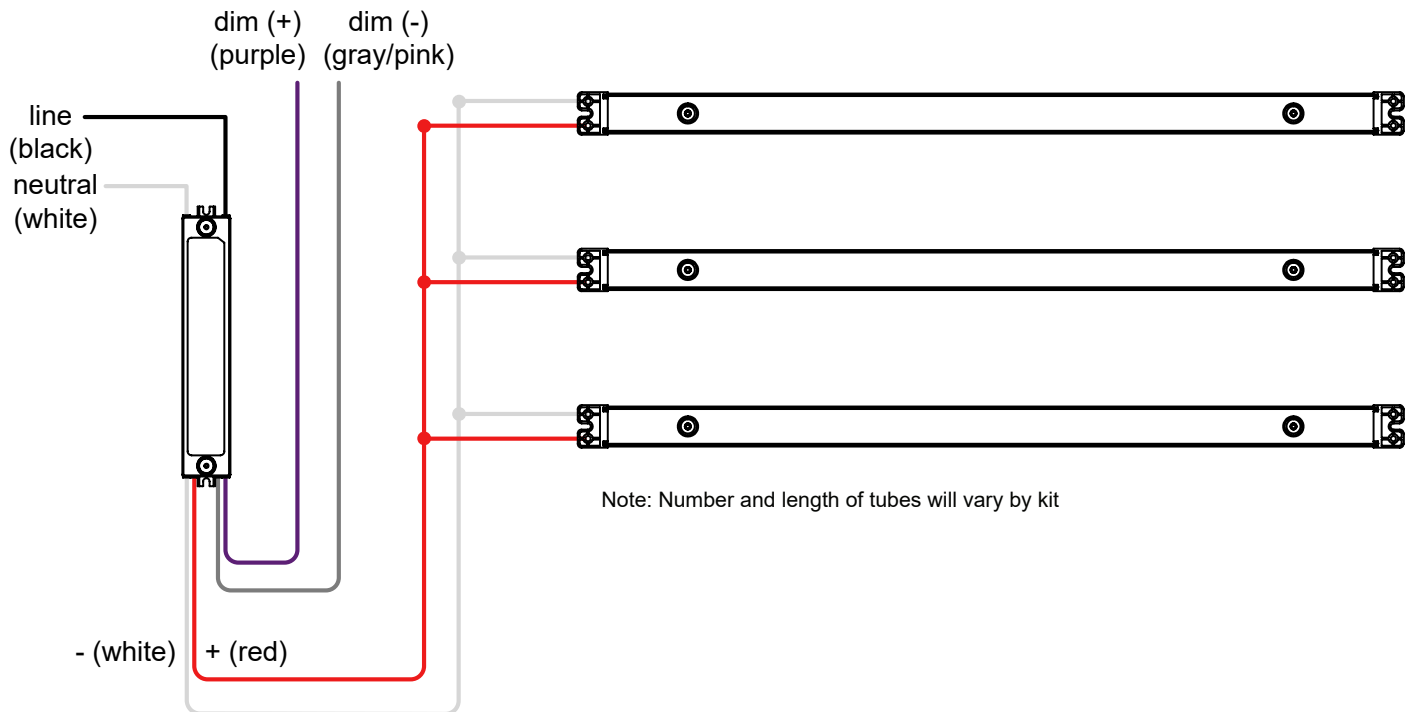

MRKD2-X1-40K25W-2S

Specifications

Model	MRKDHx-xKxW-xS
Dimming	0-10 V

Check product label for specific electrical specifications related to installation.
Improper installation will void warranty.

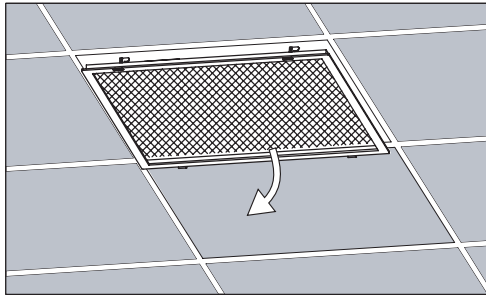

Wiring Diagram

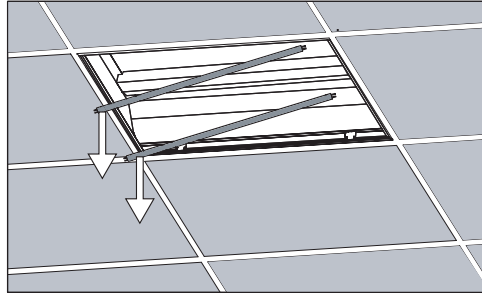

Important: Read all instructions prior to installation.

Magnetic Mount LED Tube Light Retrofit Kit
