Plug and Play Performance Purification

TruSens SensorPod-V and multiple levels of purification including True HEPA, Activated Carbon & UV-C LED Light all ensure that the whole room benefits from clean air.

IMPORTANT
Before operation, follow these steps and read our TruSens Owner's Manual at www.trusens.com/support/owners-manuals.

Included in your box

- 1 Air Purifier + Power Cord
- 1 SensorPod™ + Adapter
- 2 Filters (left side + right side)

Directions for use

Install the filter (combination Carbon/HEPA)

Remove side panel door (a), prefilter (b) then bagged filter. Remove plastic bag from filter (c) and install inside the purifier. Replace the prefilter and side panel door.

NOTE: Perform steps on both left and right sides.

Set up

Plug-in your air purifier unit and power on.

Plug-in your **SensorPod-V**

For optimal results, place **SensorPod-V** on tabletop or counter across the room, within line of sight of the purifier. Signal strength may vary by location.

Filter Replacement

Model No.	Item Number	Filter Type	Suggested Replacement/Cleaning
Z-6000	AFCHZ6000-01 (2-pack)	Combination Activated Carbon & True HEPA Filter	Every 12 months*
Z-7000	AFCHZ7000-01 (2-pack)		

*Replacement indicator will glow red on control panel to notify you to change.
NOTE: UV-C LED lights will not require replacement. Prefilter and purifier can be cleaned with a dampened cloth as needed.
