

Model: WCTW15  
15W Wireless Fast Charging Stand  
User Manual ver 1.1

### Qi Certified

Certification program ensures this charger has passed rigorous tests to guarantee safety, compatibility and energy efficiency.

### Compatibility

Compatible with Qi-enabled devices\* including

- iPhone 12 Pro/Max
- iPhone 12/mini
- iPhone 11 Pro/11
- iPhone SE/XS/XS Max/XR
- iPhone X/8/8 Plus
- Samsung S20/S10/S9/S8
- Samsung Note 20/10/9
- Google Pixel 5/4/3
- Sony Xperia XZ3/XZ2
- Xiaomi Mi 10/Mi 9
- LG G8S/G7 ThinQ
- LG V30+/V40

### Features

- Charge your wireless phone and wireless earbuds at the same time - AirPods and other TWS models must have wireless charging case
- Two coils on the stand enable large wireless coverage to allow phone charging in portrait or landscape modes
- Supports 7.5W wireless fast charging for iPhone 8 or later
- Supports 10W wireless fast charging for compatible devices such as Samsung Galaxy Series and more
- Supports 5W standard wireless charging for all Qi enabled devices and 15W wireless fast charging for NextGen devices
- No need to remove your protective case. Works with most cases up to 3mm thick
- LED indicator to show charging status
- Full safety protection for your devices with Qi certified temperature control, strict voltage regulation & short circuit protection
- Includes certified QC 3.0 USB wall charger and 1.5m USB-A to USB-C charging cable

\* Check with device manufacturer for Qi wireless compatibility

### Wireless Charger Operation

- Connect the wireless charging stand to the wall charger using the included cable
- The below table explains the LED indicator function

| Function                           | LED Indicator                             |
|------------------------------------|-------------------------------------------|
| Standby                            | LED Off                                   |
| Phone Charging                     | BLUE Solid On                             |
| AirPods/TWS Charging               | GREEN Solid On                            |
| Phone & AirPods/TWS Charging       | BLUE/GREEN Flashing Alternatively Slowly  |
| Phone Charging Error               | BLUE Flashing Quickly                     |
| AirPods Charging Error             | GREEN Flashing Quickly                    |
| Phone & AirPods/TWS Charging Error | BLUE/GREEN Flashing Alternatively Quickly |

### Specifications

- Wireless Standard: WPC/Qi (v1.2.4)
- Wireless Charging Coils for Phone: Two Coils
- Wireless Charging Coil for AirPods/TWS: One Coil
- Input: DC 5V/3A 9V/2A 12V/1.5A
- Stand Output: 15W / 10W / 7.5W / 5W (Max)
- AirPods/TWS Output: 3.5W (Max)
- Working Frequency: 110 to 205KHz
- Charging Distance: 3 to 8mm
- Charging Efficiency: up to 80%
- Dimensions: 121 x 82 x 73mm

### Important Safety Instructions

- Only use original or reputable third party chargers and cables
- Do not get wet to avoid causing short circuit damage and leakage
- Do not use in extreme hot, humid or corrosive environments to avoid short circuit damage and leakage
- Do not place too close to magnetic strip or chip ID card to avoid magnetic failure
- Do not place within 20cm of implantable medical devices (pacemaker, cochlear implant etc.) to avoid potential interference
- Do not clean with harmful chemicals or detergents
- Misuse, dropping or excessive force may cause damage to the charging stand

Please Note: When wirelessly charging a device, the wireless charger and your device may feel warm. This is a normal operating condition and should not be cause for concern.
