CARE

1. Please unplug the socks before washing them. Tuck the power cord away in the small pocket attached to the socks.
2. The wash temperature should not exceed 122°F. To maintain the quality and expand the service life of the socks, hand washing is highly recommended. Alternatively, you can put the socks into a laundry net before machine washing.
3. Using the spin process of your washing machine to remove the moisture of socks is not recommended. DO NOT tumble dry or dry the socks at high heat. DO NOT iron the socks.

BATTERY MAINTENANCE

1. Keep the battery away from fire, high temperature, or water. DO NOT drop or dismantle the battery.
2. Please fully charge the battery before storage. To preserve the lifespan of the battery, please charge it every 60 days.
3. Store the battery in a cool, dry place.
