

Cleaning and Preservation

Connect the USB connector to the power supply and press the power button to enter the working state.

Before washing, please make sure the power bank and power supply are removed.

Wash delicately. After washing, hang to dry in a room temperature area until the product is completely dry before using it or storing it in a storage box.

When not in use, store it as follows:

- When storing the product, let the product cool down before folding.
- During storage, do not place items on the product to prevent creases.
- Frequently check the product for signs of wear or damage. If you detect any damage, or if the product has been misused, return it to the supplier to check it before using it again if it is still under warranty.

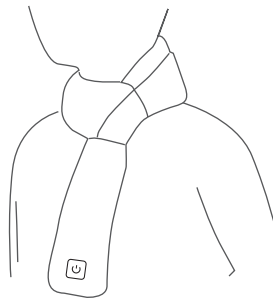

Warranty

For peace of mind, we offer a 6-month warranty on this product.

Safety Precautions

All pictures shown are for illustration purpose only and may differ from the actual product.

Before using this product, please read this user manual and all safety instructions carefully and completely to ensure safe and proper use.

The descriptions in this manual are based on the default settings of the product.

Please keep this user manual in a safe and handy place for future reference.

1. Unplug the USB power cable when not using this product.
2. For your safety, please turn off the power before going to bed.
3. Avoid using this product directly on the same area of skin for more than 15 minutes in the high temperature setting. If there is an abnormal smell, heat, change of color, or other abnormalities during usage or storage, switch off the power and stop using immediately.
4. Avoid getting this product close to any fire sources, corrosive liquids, or extreme temperatures.
5. When washing, make sure the power is off. After washing, the product must be completely dried before being used.
6. Hand wash only, scrubbing gently. Rinse thoroughly after hand washing to avoid detergent residue. Do not hand wring. Hang to dry.
7. If the product is being used for an extended duration, such as when falling asleep, please adjust to the low temperature setting.
8. Do not use if wet.
9. Do not insert pins.
