

PLATFORM QUICK START

How to correctly install your platform

MAX Weight Capacity: 75lbs / 35 kgs

TOOL REQUIRED

4mm hex wrench

STEP 1

Line up the Platform with the existing holes on the Rear Rack.

STEP 2

Using the existing bolts from the Rear Rack, insert with the bolts with the washer.

STEP 3

Tighten bolts equally until snug.

NOTE

The Platform is also compatible with the Letric Front Rack
